Skills: Team player with a strong technical background (ITC, cloud computing, new media), experienced in negotiations, regulation issues, public procurement (tendering), litigations, M&A, real-estates, marketing projects, outsourcing projects and IP law

Since December 2013, I've served as a Board Chairman to Czech IT company MULTIMA.

I managed all daily operations in order to increase the shareholders' value by virtue of introducing the proficient and effective organization and financial management.

After passing the Czech Bar Exam with honors, I built a niche law firm that offers legal counseling to various technological companies (e.g. leading local SAP integrator, Czech POS developer and provider, various startups) on a regular basis. My criminal law practice offers me unique insight into human behavior. I have also arranged the acquisition process of a mid-sized Czech IT company to a multinational payment and fuel cards provider (2008) and MBO and subsequent merger of Infinity Group (2012 – 2013).

This has helped me to develop a broader range of legal skills and an in-depth knowledge of certain business aspects specific.

Petr Horáček
